# President's Letter

Welcome young letter loving grasshoppers-

Spring has officially sprung, so they say, but as I "pen" this letter the temperature flirted with Mr. Frost over night. We didn't get the light kiss from Mr. Frost as he shied away at the last moment, thankfully! I say thankfully as I have just one Hollyhock left from the Indiana seeds I brought back several years ago, and they don't take kindly to Mr. Frost and wilt at his gentlest kiss.

It seems as though we cling to our roots no matter how far away we land and take up root. I think it's human nature. We like the things that comfort us and remind of us home, least the good things. Then wherever we root we make new memories to take to our next destination; adapting what we know to the new surroundings and climate and culture. This is how we grow and evolve and become more than a single entity.

The same holds true in calligraphy and art. Granted, most artists work alone and are isolated because they really are introverts, but if we don't grow and learn, and share and adapt, then to what end is our journey if we leave no seeds to flourish anew? Spring is a wonderful time as Nature comes alive after resting from her winter slumber. She never quits, never gives up, and is relentless in bringing forth her beauty.

Think back to all the classes and workshops you have taken over the years. I'm sure those who have done this for years see repetition in classes and workshops, and I can say I'm seeing that now having been in Kaligrafos for almost 8 years. BUT, even though I know or have been taught a technique previously, I learn something new from each instructor. Plus, being immersed in what you love with like minded people makes you grow beyond what you can achieve alone—just like adding a little compost to your soil nurtures your flowers to be even more spectacular. But, now take your knowledge and impart it to others with your twist and the cycle continues and who knows what giving that little tidbit of info to someone can lead them to.....

Now back to regular programming:

This month is the deadline for signing up for the SWCC Envelope Exchange. Earth day is the deadline to get your request to me (April 22).

Our Spring Renewal exhibit is up at the Artists Showplace. The reception is April 9th from 4-6pm. I hope to see a bunch of you there!

The Executive positions of President and Secretary are on the ballot this year. If you are interested in either position please seek our Nominating Chair Brenda or anyone on her team; Marilee, Marilyn, or Rita.

May new roots spawn new beginnings,

Thomas

### Book Reviews

If you are looking for an opportunity that will help others, fill a need and be more rewarding than you could imagine, then the Library Committee wants YOU!

We have an extensive library and it can be overwhelming (especially to those new to calligraphy) to decide what books to borrow, which is why the Library Committee is asking its members to write reviews of our books. The reviews will be published in both a future newsletter as well as posted on the Library Thing. For more information, please contact Brenda.

### Donate Cards

Donate your handmade cards to Membership Chair, Eric Doerr! We need them for birthdays and other occasions! Thank you!!!

*Like Kaligrafos on...*

### Library Books

Remember that library books are due at the next meeting.

Browse The Library Thing to pick out a few titles at: <http://www.librarything.com/catalog/Kaligrafos> then send Brenda Burns an email with your selection(s) at [library@kaligrafos.com](mailto:library@kaligrafos.com) so she can bring your selections to the meeting.

*Please note:*

*When requesting a library book from Brenda, be sure to put in the subject line "Library Book" or "Kaligrafos."*

# Letters of Whimsey Janet Takahashi Workshop

By Trish Manche

I had the opportunity to attend the Janet Takahashi workshop on February 27th & 28th hosted by the Fort Worth Guild. It was a wonderful experience. She took us through the steps of making a “field palette” that was created with a variety of different tools (water colors, water and regular color pencils, pens, graphite) that were recommended on the workshop supply list. Not only were we marking for color but also testing water solubility, this puts the

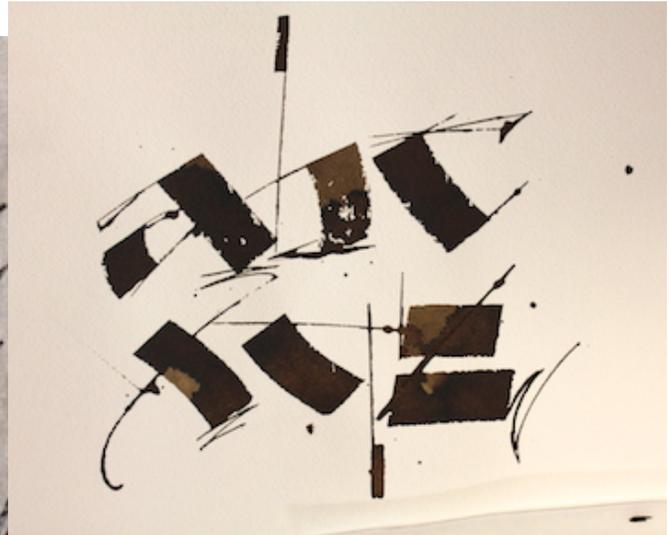

information at your fingertips to assist with making a journal and knowing what to expect from each tool. We spent time creating simple but beautiful backgrounds, learning steps to give letters a funky 3D appearance, shading techniques and she spent some time showing us how to create your own alphabet. Janet was a very hands on instructor and truly a delight.

# Harvey's Helpful Hints

by Harvey Anton

**It's okay to roll a scroll**, but under NO circumstances secure the roll with a rubber band! After a short time the rubber band becomes discolored and brittle and even breaks into small pieces leaving your scroll with discolored marks. These will never come off, so be wise and not use rubber bands on any of your work. Use ribbon or string to secure the scroll.

**And while we're on the subject** of paper DO NOT EVER LEAVE IT WITHOUT PROTECTING IT FROM THE VERMIN! And don't think you don't have them – they're hiding waiting for you to leave some paper for them to dine on. Case in point, I had a small piece of paper (written on) wrapped around another scroll that I had written on and I tell you they didn't leave much of anything except the holes on the smaller piece. So lesson learned – protect any and all your papers (even scraps) with moth balls, moth flakes or other critter deterrents.

**It is essential to have a “quiet environment”** when concentrating on your writing. Not only will it reduce mistakes, but the quality of your lettering will show improvement also. Disconnect your phone, turn on the radio to a soft music, and write away! Soon you will be in your writing world oblivious to everything.

**You can reconstitute the dried gouache** in the old tube by cutting the tube open, scrape out all the dried pigment into a

small bowl or container, add a small amount of water, and stir until you get the consistency you want. Save this mixture in a watertight, airtight container for use at a later date.

**The best airtight container** I have found is the rubber-topped liquid prescription bottle which requires a hypodermic needle to access the interior of the bottle. This works exceptionally well, but you must release the pressure inside the bottle by removing the syringe plunger and inserting the needle into the rubber cap. The inside ink will last indefinitely and be easily transported to meetings, classes and workshops.

**My nib spotlight this month** is the vintage La Renommée “spear” type nib. If you haven't yet tried the “Spear pointed” nib you are in for a treat with this one. The flex is very light allowing for a broad downstroke with little effort, yet giving you a very fine upstroke. All this adds to less hand-fatigue. And, I'll bring my handmade wooden penstuffs to the meetings along with many other vintage nibs. Come by my table, check them out, and 10% of the sales go to Kaligrafos, so it's a win-win!

Till next month,

# Definition of a Volunteer

A person who expresses a willingness to undertake a service and use their time and talents for charitable, educational, or other worthwhile activities, especially in one's community for the benefit of other people as a social responsibility rather than for any financial reward.

Kaligrafos is a community; all of us collectively become Kaligrafos and give it life. Without us there is no Kaligrafos and without volunteers and Chairman there might not be a newsletter, or any exhibits, or workshops. A single person cannot run Kaligrafos nor can 5 people; it takes teams and leaders combined to give the community the programs every month and workshops with instructors from across the country, not to mention the directories and name tags we get every year. If we don't have enough volunteers then things will have to be re-evaluated.

All of us contributing make Kaligrafos the what it is today. Let's make it better for tomorrow. If your not sure what is needed but you want to help, seek out myself or any of the current Chairman.

Don't wait to be asked, volunteer!
